Hi Mary Beth and Chris – Attached are two specification sections (Payment Procedures and Safety Requirements) we'd like to discuss with you and Rhonda. The Payment Procedures Merged document is from the Upper Trenton Channel project managed by Heather Williams. The Safety Requirements specification was used on the Sheboygan River project also managed by Heather, but we didn't include it in the Upper Trenton Channel specifications. I'd like you and Chris to look it over and see if we want to use it and if we do, do we want to use it as a separate specification or roll the information into another specification section. Some of the information in the Safety Requirements may be covered in EPA General Terms and Conditions so we wouldn't want to include anything that could contradict those.

We may also want to have a discussion with whichever Stakeholder is going to issue the contract for the disposal area to identify any specific contract requirements they may have so we can edit these two specifications to their preferences too.

Cheers!

Bill
